

**Welcome** Genoa Plastic Industries, established in 2007, is today the largest premium quality food and beverages packaging production unit in Kuwait. During a short span of time, GPI registered its name as one of the leading Manufacturers and Suppliers of Rigid and Flexible packing solutions in the region. Our strong commitment to our Customers helped in solidifying and building long term relationship.

The Company witnessed high growth rate in terms of production volumes and demand, which in return led to the expansion in our product offerings for both food and beverages. We offer a wide range of preform and cap covers for water, juice as well as dairy products. As for food packaging, we offer both flexible films and LDPE shrink film as well as with printing capabilities up to 8 colors.

At GPI, our niche is providing the highest standards of quality. We rigorously monitor every level of production, manufacturing, warehousing, as well as dispatches. We rely on the best-of-breed machines as well as the latest technologies, systems, and softwares. We are continuously improving our processes to maintain our efficiency, as well as developing and training our employees to meet industry standards.
